## INVITATION

Belgian Wildlife Disease Society

Third Symposium of the Belgian  
Wildlife Disease Society (BWDS)

*“Wildlife disease surveillance”*

Friday 16 October 2009

### SPONSORS

# Introduction

The third Symposium of the Belgian Wildlife Disease Society is focusing on "Wildlife disease surveillance". The BWDS is an independent non-profit working group, uniting scientists and practitioners in order to promote research and to exchange information in the field of wildlife diseases in Belgium. The BWDS is open to veterinarians, biologists, ecologists, bio-engineers, and others actively working in this field. In continuation of the first and second symposium in 2005 and 2007, this third symposium will explore wildlife disease surveillance efforts and priorities in Belgium and Europe.

# Program

## 08:30 - 09:00 Registration

09:15 Welcome  
*Gen. Ph. Martin (ACOS Well Being - Be)*

09:20 Opening
